Why Partner with BDC Labs?

BDC Laboratories has been a leading service provider for the medical device industry for over 40 years - specializing in comprehensive ISO/IEC 17025 accredited testing services, testing equipment, simulated use solutions, and silicone mock vessels and anatomies.

When you work with BDC Labs you can be comfortable in the knowledge that you're partnering with the best in the business. Our technical expertise, innovative products, and unparalleled customer service sets us apart from everyone else in the industry.

Testing Services

ISO/IEC 17025:2005 Accredited Testing Services

BDC Labs is an ISO/IEC 17025:2005 Accredited company focused on assessment of Class 2 and Class 3 cardiovascular devices, as well as MRI compatibility testing of all passive implant technologies.

Testing Equipment

PD-1100
Pulsatile Pump

VDT-3600i
Heart Valve Accelerated Wear Tester

HDTi-6000
Pulse Duplicator

RDTL-0200
Radial Durability System

BDC's test systems are conceived and designed from an academic research foundation, and then aligned to an industry R&D and regulatory submission philosophy. This practice results in systems that have ultimate adaptability, comprehensive sample monitoring, and superior performance.

Simulated Use

Transcatheter Coronary
Simulated Use Solution

Mitral Valve
Simulated Use Solution

Physician Training Suite Solution

BDC Labs designs and manufactures standard, as well as custom simulated use solutions that include clinically relevant vascular pathways with associated pulsatile hemodynamics.

Silicone Mock Vessels & Anatomical Models

Arterial Models

Diseased Vessels

Heart Valves

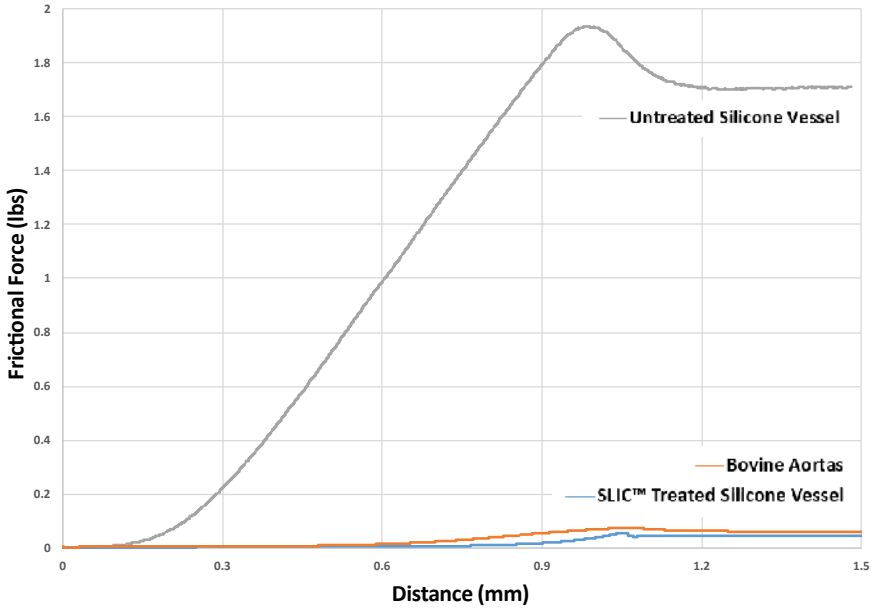

Venous Models

BDC's silicone vessels can be used for general bench & durability testing, simulations, and marketing & sales activities. Beyond straight vessels and basic geometries, BDC Labs also offers a library of standard anatomical models, representative of both healthy and diseased states, that can be provided as-is or customized to your specifications.

SLIC Coating

BDC's proprietary SLIC™ friction reduction coating produces a clinically relevant lubricity with a uniform, ultra-thin, gap-free, conformal and compliant surface that performs similar dry or wet.

Our clients love us...

Angiodynamics, Inc.

"I would highly recommend BDC Labs to companies requiring assistance in technical testing outside of the scope of their current capabilities."

Medtronic

"BDC Labs will spend extra time to get you exactly what you need, at the best price. Biomedical Device Consultants & Laboratories is the best place to meet your timelines."

Edwards LifeSciences

"We took on a very technically difficult project without much room for error, and BDC put in all the extra effort necessary to deliver on our end project."
